

Did you know?

You can get your flu and COVID-19 vaccinations at the same time?

Book your vaccination today.

People at highest risk of severe illness and hospitalisation from flu and COVID-19 are those who have not been vaccinated.

It is recommended to vaccinate against:

- flu and COVID-19, at any stage of pregnancy and while breast/chest feeding
- flu, for anyone 6 months and older
- COVID-19, for anyone 5 years and older.

**Vaccination helps keep you
and your community safe.**

For more information ask
your health professional.
