Health Professionals Cervical Screening Course

Course Details

Who is it for?
The Health Professional Cervical Screening Course provides GPs, GP registrars, International Medical Graduates, nurses, midwives, health workers.

Course Overview

- Describe the current cervical screening program.
- Manage cervical screening results and follow up.
- Discuss the changes coming for the Cervical Screening Renewal Program in 2017.
- Explain to women about HPV and the cervical screening program.

Course – 2 Day
Day 1 & 2 (Modules 1, 2 & 3)
For nurses and midwives and health workers working towards eligibility as authorised non-medical Pap smear provider and to access data on the Queensland Health Pap Smear Registry (Modules 1, 2 & 3 required)

Module 1 - 2 day workshop
Module 2 - Online assessment
Module 3 - Clinical attachment* (*Once the online assessment has been completed and passed, you may then register for the clinical attachment component at an additional cost of up to $550).

Course – 1 Day
No Clinical Attachment or Assessment
For GPs, GP Registrars, International Medical Graduates looking to upskill and to be updated on the 2017 Renewal Program.

Also for authorised Pap Smear Providers, nurses and midwives wishing to upskill in the cervical screening area.
