TEDMEDLive2017 Mackay

Your chance to join in the two-day TEDMEDLive2017 with five international streaming TEDMED talks from TEDMED’s 40+ speakers who are thought leaders and accomplished individuals from every sector of society, both inside and outside of medicine, followed by local discussions and Q&A sessions.

TEDMEDLive2017 LIMITLESS

As we work to make advances that will shape a healthier humanity, progress is incremental but vision is unbounded.

We create a healthier world by working in that fertile zone between the limited (knowledge, resources, time) and the limitless (imagination, creativity, curiosity).

This year’s event will focus on that productive tension between “what is” and “what if”, the inspiration that continues to drive us further into what’s possible.

Together, we are limitless.

Educational outcomes

The event is RACGP / ACRRM registered with CPD. There is no cost however seating is capped at 200.

TEDMED is the independent health and medicine edition of the world-famous TED conference, dedicated to “ideas worth spreading.” TED Talks bring together extraordinary people and ideas from all disciplines both inside and outside of medicine that accelerate innovation in health and medicine.

The TEDMEDLive program delivers the ideas discussed on the international TED stage to those on the front lines of health and medicine around the world via web broadcasting.
