CKD Ambassador Program

Kidney Health Australia is pleased to launch our CKD Ambassador Program for Health Professionals working in Primary Care

Why become a CKD Ambassador?

- Improved quality of patient care
- Exclusive CPD access
- Increased efficiency and income
- Detect, manage and refer CKD patients more confidently
- Contribute to development of educational resources and tools
- Networking opportunities
- Official Kidney Health Australia endorsement
- Media and promotional opportunities for your practice
- Access to Kidney Health Australia’s resources, services and support

1 in 3 people in Australia are at increased risk of kidney disease

1.7 million people living in Australia are affected by kidney disease

You can lose up to 90% of your kidney function without realising it

Apply today!
